

The GAYE scheme was launched in November 2009 achieving 10% sign up at launch. We are looking to give the scheme another push in the next internal newsletter scheduled for August as we have recently grown to over 1,000 staff and believe there are new staff members who will be interested in the scheme.

We are committed to long-term engagement with our staff on the benefits of payroll giving.

*"As an extension to our corporate support, we were delighted to introduce Payroll Giving to our employees. Payroll Giving is a fantastic way for employees and companies alike to embrace charity giving, impact on community involvement and provide a positive change to people's lives. The involvement of the Charities Trust and Hands on Helping really drove forward this exciting challenge and reaped the benefit of that important partnership effort."*
